MEALS

Students will pay for their own breakfast and lunch on the day they travel to Belize, as well as lunch and dinner on the day they return to the US.

All other meals are eaten at the Glover's Reef Research Station. Meals will be prepared by a full-time cook and served buffet style three times a day with packed lunches available when necessary. Food is primarily Belizean and North American cuisine with a section of local fruits and vegetables included in every meal. Special diets can be accommodated but must be communicated well in advance of researchers' arrival at the station. Drinking water is available at all times.
